Just a complicated password

What is my goal?

My runbook should be able to read user information in other tenants

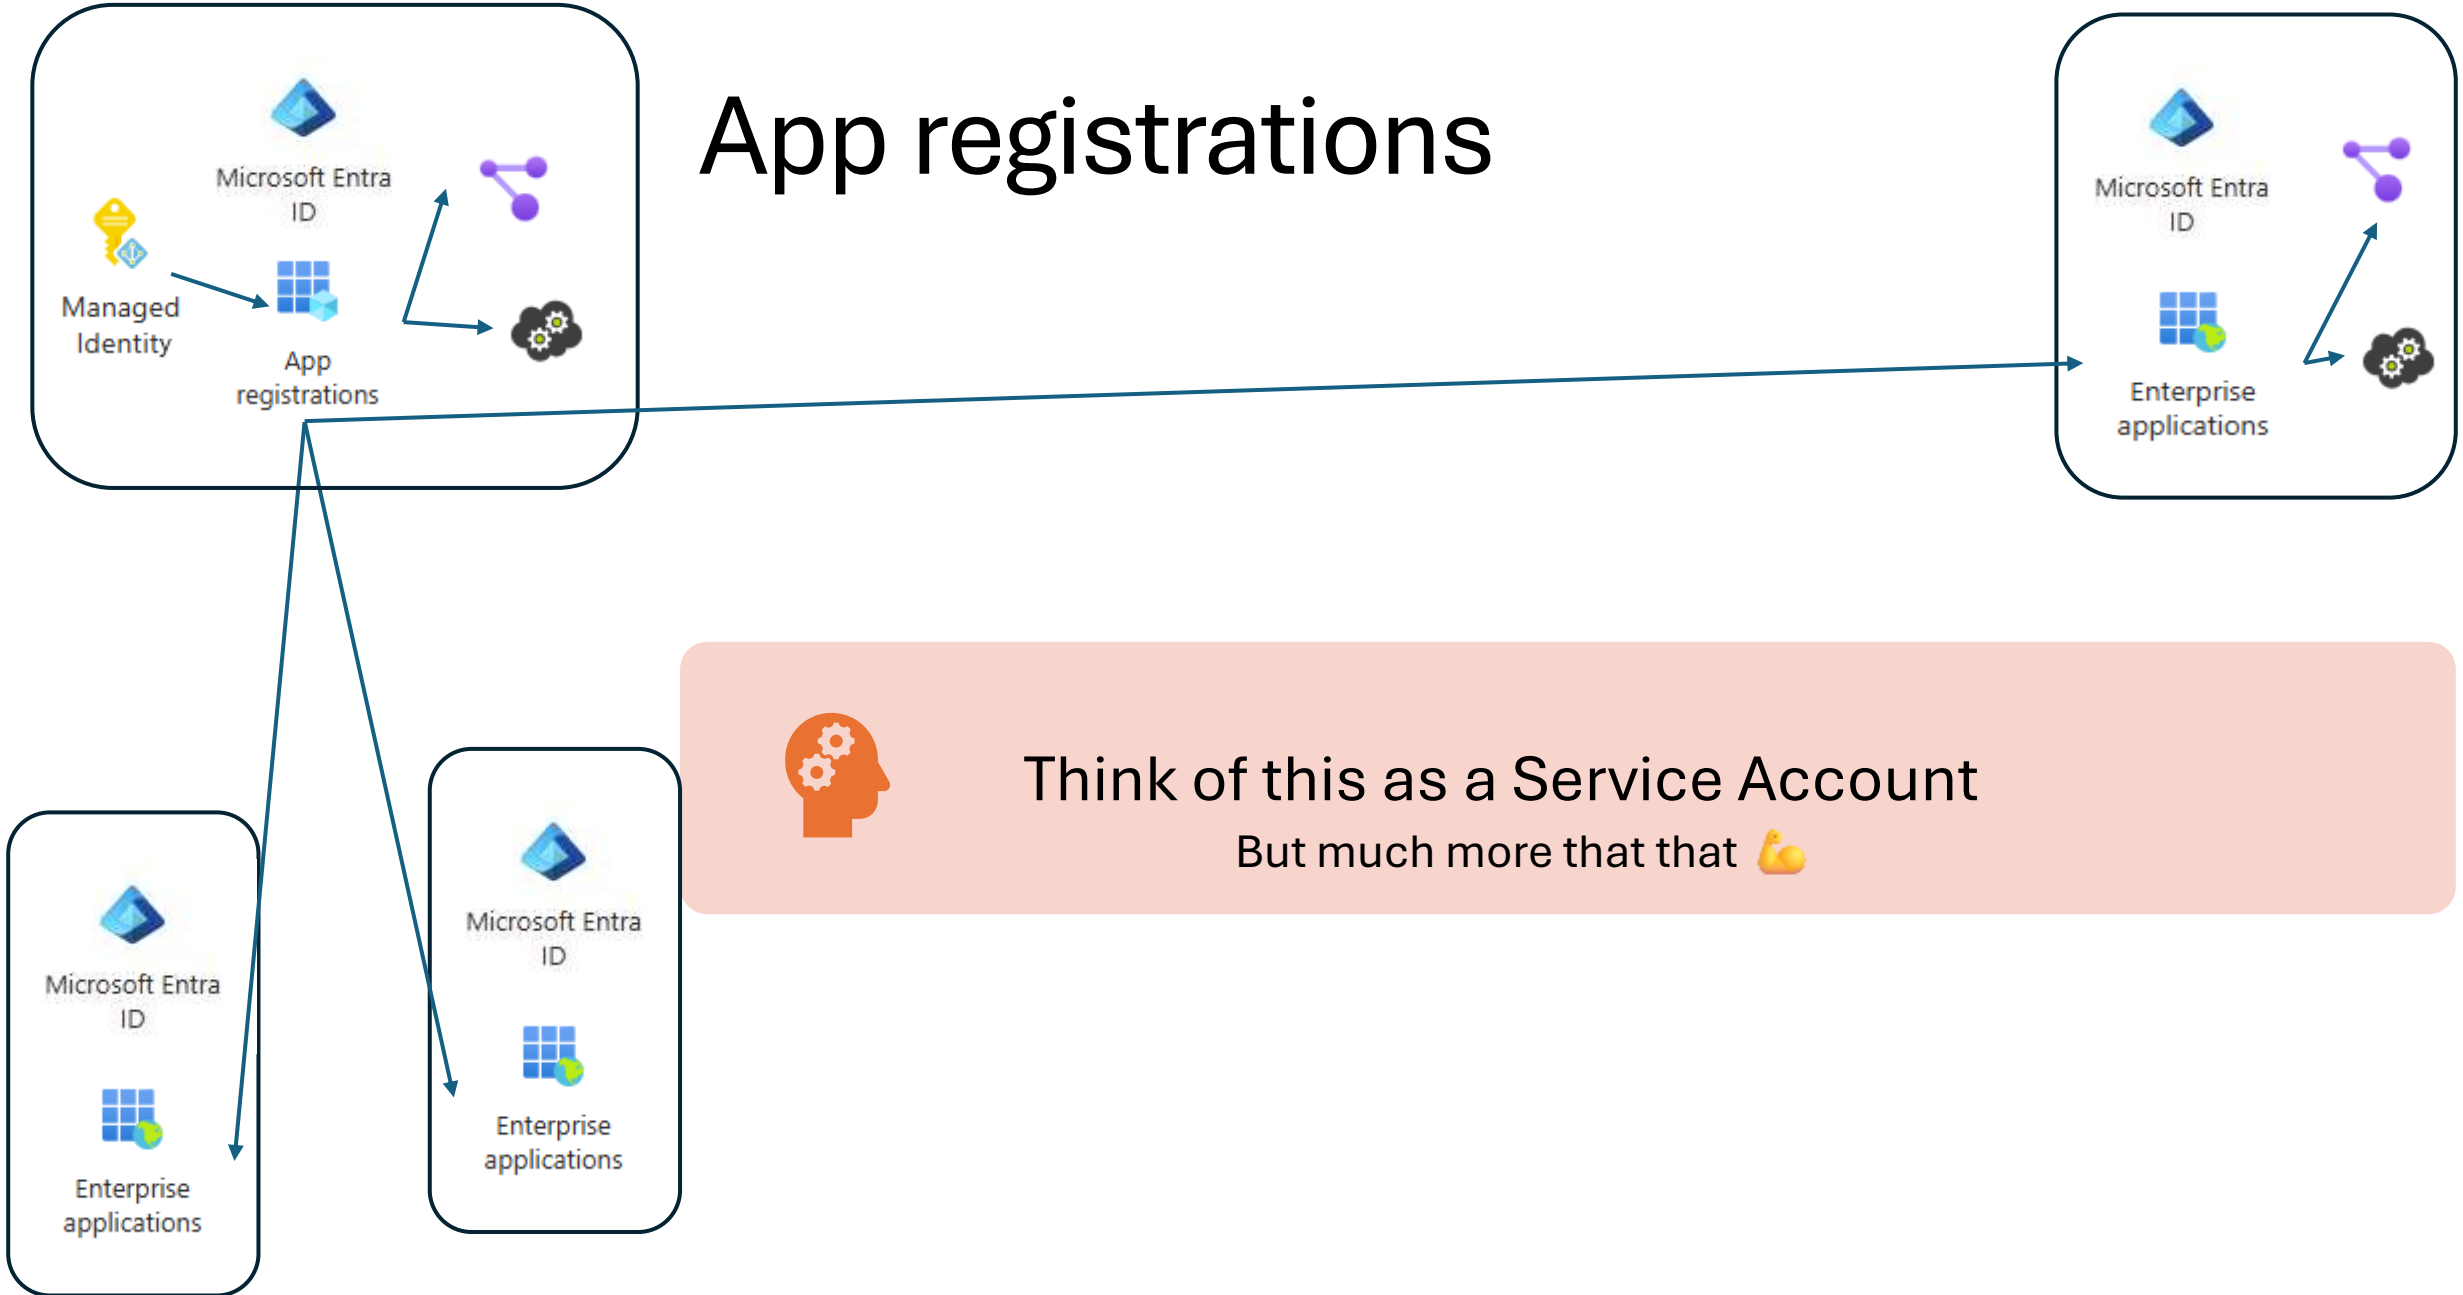

- No secrets

- No certificates

Federation

It's like a passport, where as the password is like a key.

One App, Many Names — Let's Clear This Up

SO did this just solve ALL the problems?

This talk just brushed the surface ... Theres way more to this,
but if you "get" this part, I think your off to a good start 🤗

Did we make it?

- *One ring*
- *Three realms*
- *Zero secrets*
